And forward to:-

Victorian Herpetological Society
PO Box 4208
Ringwood, Victoria 3134

The Victorian Herpetological Society is a group of dedicated reptile enthusiasts. Committed to all aspects of herpetology including husbandry, field studies and conservation. All interested people are welcome and we cater for the beginner to the advanced herpetologist.

Meetings are held every three months or so with exciting professional and amateur herpetologist guest speakers. Many aspects of reptile and amphibian husbandry are covered. Meetings include special reptile displays, super auctions and detailed reptile information boards.

This year promises to be a special one for the Society with the holding of the first ever Victorian Reptile and Amphibian Expo in May. Please watch our website for details of this exciting event.

There are three "Monitor" publications per year. This internationally acclaimed journal details husbandry and field studies by many outstanding authors. The journal will continue to feature excellent articles on captive reptile husbandry and fieldwork from around Australia.

Correspondence should be directed to,
Secretary
PO Box 4208
Ringwood Victoria 3134

E-mail inquires and additional membership forms can be requested from:-
